OFFICIAL PAPER OF THE CITY

No flag but the Old Flag—the Red, White and Blue
With the stars on a Union unbroke in kind true'
Arise and defend it! ye sons of the brave
Whose blood bought the banner our color must wave

SATURDAY MORNING, AUGUST 16, 1862

The Prescience of Government

The great difficulties under which our Government is laboring does not prevent its administrators from looking to the future. It is not contemplated that the Mississippi river will ever belong to a foreign nation, but ever remain open as a great means of commercial communication from the vast valley of the Mississippi to the ocean, and to all parts of the commercial world. And the Government intends to provide means by which the great amount of shipping on the upper lakes instead of lying dismantled for six months of the year, in that cold region, can pass to the Southern rivers, and at may be find employment during that season upon the ocean. AND ANOTHER OBJECT IS IN CONTEMPLATION BY GOVERNMENT. If this nation should ever unfortunately be engaged in a war with England, it is the design of our Government to be in a condition to send any amount of war vessels to the Upper Lakes, and all these things are to be effected by enlarging the Illinois and Michigan Canal so as to admit of the passage of large vessels from the Lakes to the Mississippi and its affluents. The idea is a grand one worthy the Administration under which the commencement of the Atlantic and Pacific Railroad is to be inaugurated—the granting to every American citizen a "free home" on the National Domain and the extension of human slavery to free Territories forever forbidden.

How is this great national improvement to be effected? We will answer this question after stating some facts that may not be generally recollected by our readers. Many years ago, when Illinois had but a very sparse population, Congress gave to the State 400,000 acres of land, the avails to be used in constructing a canal from Lake Michigan to the Illinois river. The work was undertaken with the design of making a ship canal. It progressed until 1837, when in the general crash of the time, it was suspended. When the work was resumed after two years or more, it was found necessary, for want of means, to abandon the design of making a ship canal, and to finish the work in the cheapest manner, on what was called the "shallow cut" plan,—only securing water sufficient for the passage of canal boats. The plan of making the canal of a capacity to admit vessels of a good size, was very reluctantly abandoned. It is now to be resumed and finished by the National Government.

The bill presented to the House of Representatives by Mr Blair, making provision for this purpose, constitutes a board of three commissioners to superintend the work. One of them is Mr. Swift, a trustee of the present canal, the others are to be a United States engineer and a citizen of Illinois, both to be appointed by the President. The dimensions of the enlargement are to be as follows:—Width, not less than 160 feet, with locks not less than 350 feet long and 75 feet wide; depth sufficient at all seasons to admit the passage of vessels drawing six or nine feet. The work to be done under the direction of the Secretary of War. Commissioners may fix rates of toll and frame general regulations. Must let the work to the lowest responsible bidders. The revenues from toll to go first to the United States, to cover the outlay, and next to the State of Illinois. After discharging all the debts for construction, the canal is to be made free.

The rebellion has brought out an energy in our Government and a disposition to take the responsibility in pushing forward great national improvements, gratifying to our nation and securing the admiration of the world. Our people may feel the most unfaltering confidence that the declaration of Rev T Starr King, of the future character and condition of the United States, will be fully realized.

"HARD CLAMS."—From a gentleman who has just returned from Tillamook Head we learn that visitors to that part of the sea beach, this season, have been sadly disappointed in a failure to realize their anticipated feasts upon the delicious and invigorating testaceous mollusks and bivalvular cohogs that have previously abounded in that famous locality. It is the general supposition of those well skilled in crustaceology that in consequence of the extreme rush of fresh water out of the Columbia during last Spring, and which extended at least fifteen miles out to sea and far down the coast, neutralized the saltaginous element and caused all the "clams, crabs, and other shell fish" of that region to *back mmalyse*.

ANOTHER FIGHT.—We hear that another fight took place in Vancouver, day before yesterday, between a couple of its noted citizens, in which bowie knives, smelling bottles and pick axes were handled freely, without much damage to the parties or the tools. The case has gone before the Justice, who probably will decide the relative merits of the combatants, and fine accordingly, without the assistance of a prosecuting attorney.

A Ruse, Proving Treason.

We have had and yet believe we have men in Oregon in Washington and in Idaho who are in correspondence with the rebel authorities who if occasion were to put them in funds would take active part in behalf of treason. We have heard a rumor, and we believe it to be true that a letter was addressed to prove the sentiments and traitorous views of a man residing in Canada, a few miles from the city of Vancouver.

A man by the name of Smith, we must the name of Smith because it is said not to be a common one—one by which to designate any particular person—received a letter *dated at San Francisco*, and addressed to a party with the true name of some person there, stating that he the said Smith would be put into possession of *spin it and fellers* on his return and appointed to the writer at a certain number of acres contracted in that city, the money to be used for the most purposes, and that other important information in relation to the movement of the day would then and there be had to the hands of the writer, further pronouncing that he had by confidential means ascertained the political views and responsibility of the Mr Smith to whom his letter was addressed.

On the receipt of the letter Mr Smith said nothing, but on matters of importance dressed himself in store clothes, borrowed money on the strength of an intended visit to San Francisco, which he gave out that he had important business to attend to, and that on his return he would have plenty of money.

The next man with farming been returned our nameless man, whom we call Mr Smith, duly took passage on the steamer — for San Francisco. On passing was rather hot towards Mr Smith money to all out to the sugged he arrived at in this. He left one time to secure the services of a number where he could to hold the Agent of Jeff Davis who was expected from possession of fonds and show him how a Californian Oregon and Washington would be converted into a Pacific Republic.

But neither the number of the sheet nor the writer of the important letter held by the said Smith, in his hands (for his commission and the evidence of his infamy) could be found. Both were, as the lawyers say, *non est inventus*. The plan struck the brain of Mr Smith suddenly. But did not strike him down that *he had been a fool* for so doing, but a flaring his scattered brains, he made a bee line for his hotel, and took the first steamer for home.

Daily he may feel that detectable haven for a troubled disembodied soul sickened and wearied him. The shirt from his new clothes was taken off his borrowed money was expended, having instead of fifty thousand dollars in a capacious deer skin bag which he had provided barely enough to pay for his passage ticket, letting alone the payment for supplies of liquor in which he had indulged on his passage out.

Reader did you ever see a cock, after being soundly thrashed, run off towards his roost, with his tail feathers dragging in the grass? Did you ever see a dog, on returning from a dog fight with his tail between his legs? Or, rather did you ever see one of the canine race caught in killing a sheep? If you have been one of these incidents or all of them, you can have a very good idea of Mr Smith when he returned to his home not a thousand miles from Vancouver. He has been quiescent since. He don't like to talk secesh any more. Like some of the Lawyers, Statutes and gemma Smiths he dresses up.

MARRIAGE NOTICE to give residence to letters on the supposition that they are sent by the authorized notary of the KNIGHTS OF THE GOLDEN CIRCLE unless you have personal knowledge of the author of the same. Communications should be careful in hitting at FIRST BASE.

FAIRBANKS. We learn that a gentleman who has crossed from Fort Benton this summer, arrived here last evening on the *Wahash 6. Hunt*, and states that he was one of the advanced party of emigrants whom we have previously noted, were *en route* for Oregon. We were unable to learn any further particulars than that the emigrants would take active part in behalf of treason. We have heard a rumor, and we believe it to be true that a letter was addressed to prove the sentiments and traitorous views of a man residing in Canada, a few miles from the city of Vancouver.

A man by the name of Smith, we must the name of Smith because it is said not to be a common one—one by which to designate any particular person—received a letter *dated at San Francisco*, and addressed to a party with the true name of some person there, stating that he the said Smith would be put into possession of *spin it and fellers* on his return and appointed to the writer at a certain number of acres contracted in that city, the money to be used for the most purposes, and that other important information in relation to the movement of the day would then and there be had to the hands of the writer, further pronouncing that he had by confidential means ascertained the political views and responsibility of the Mr Smith to whom his letter was addressed.

On the receipt of the letter our Mr Smith suddenly put on airs

The Daily Oregonian.

CITY.

The MORNING OREGONIAN has a larger SUBSCRIPTION LIST than any other Daily published in this City.

THE DAILY OREGONIAN may be had at the Franklin Book Store, and at Charles Barrett's, Front street

SERIOUS COIN.—We were shown yesterday, by a gentleman of this city a counterfeit $5 gold piece, which was paid him by a customer, and which he took readily, not perceiving that it was spurious at the time. The imitation is quite complete, and the only way of detecting the cheat is the absence of the brilliancy, clearring belonging to genuine gold. The die in which it was cast must have been a true copy of the original legal die for $5 gold pieces minted at the U. S. Mint in San Francisco, even to the most minute hair stroke. The color is also good, having been heavily washed with pure gold; and the most remarkable thing of all was its weight being exactly that of a genuine $5 gold piece. From this it will be perceived that the deception is as near complete as it is possible to make it; and our citizens should be on their guard closely, or they are liable to have any quantity of this counterfeit coin passed upon them at any time. It requires close scrutiny to detect the cheat. The piece we saw looked new and bright, and bore the date of 1861. Look out for $5 pieces.

ARRIVED.—The *Hunt* arrived last evening from the Cascades with a small number of passengers and a large amount of gold dust per Wells, Fargo & Co.'s Express. There was no connection, however, beyond Walla Walla, and the connection between the Dalles and the former place was made by stages—the Express messenger and a few passengers coming down by this conveyance. The *Tenino* is still on the rocks, and no boat running on that route at present.

The steamer *Julia* arrived a few minutes after the *Hunt*, from the Cascades, bringing a few passengers, but no later news.

THE MAILS.—By reference to advertisement it will be seen that the steamer *Maria* will make her first trip to the Cascades on Monday next, leaving here at 9 o'clock, A. M., and that she will continue thereafter to make regular daily trips on this route, connecting with the stages at *Dalles* and *Spray* on the Columbia above. This will complete the arrangements for the establishment of a regular opposition line of steamers on the Columbia, and which, we doubt not, will be hailed with joy by many who have from various causes become enemies to the old line. Opposition is the life of trade, and when successfully inaugurated generally results beneficially to the populace.

HONOR TO WHOM HONOR IS DUE.—We take pleasure in saying that our excellent City Marshal is receiving much praise for the [illegible] manner in which he is discharging the duties of his office; and truly we think can be said of every one of our city officers—City Councilmen, Recorder, Street Commissioner, Deputy Marshal, and private watchmen—one and all.

IMPROVEMENTS.—Improvements are still going on rapidly in our city, and thrift is visible in every street and corner. Large brick and frame buildings are fast being completed, and old ones renovated, re-painted, and improved materially.

NAMES OF THE RECENT BATTLES.—The following are the names which, it seems, have been assigned to the recent battles in front of Richmond:

Sunday, June 26.—Battle of Mechanicsville.

Friday, June 27.—Battle of Gaines' Mill.

Saturday, June 28.—Battle of the Chickahominy.

Sunday, June 29.—Battle of Peach Orchard; battle of Savage's Station.

Monday, June 30.—Battle of White Oak Swamp; battle of White Oak Creek; battle of Nelson City Cross Roads.

Tuesday, July 1.—Battle of Turkey Bend.

During the past 170 years England has expended in war over ten thousand millions of dollars, of which four thousand millions remain in the shape of the most colossal of national debts.

The Markets.

We note [illegible] changes, with an upward tendency, in domestic produce. Flour rose from [illegible] prices quoted; bacon slightly [illegible], with but comparatively small receipts. Fresh Oregon Butter on the rise, and [illegible] scarce. Green fruit is beginning to come in plentifully; a large number of watermelons were brought up from California on the Pacific, and sold briskly for a day, at from 50 cents to $1 25. A few boxes of peaches of fine quality also arrived, but were dull sale. Trade during the week has been slack, with [illegible] all orders from above.

The following vessels have arrived during the week: Steamship *Pacific* with 380 tons freight, assorted merchandise; Bark *Almatia* with 6,245 packages freight, and Schooner *W. L. Richardson*, 50 tons. The *W. L. Richardson* is about ready to sail for Victoria with some 70 tons flour.

LABB, WEBSTER & CO.'S
FAMILY
SEWING MACHINES
ARE UNEQUALLED BY ANY FOR
BEAUTY AND SIMPLICITY OF CONSTRUCTION
AND
Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE well made, simple in its construction, and easily kept in order; should make a firm lock stitch alike on both sides of the material, and should sew as well all materials that can be sewed.

It should be able to use cotton thread, or silk of equal thickness from the spool, and to sew from coarse to fine, and from thick to thin, with rapidity and without changing the tension. It should also be able to make the tension greater or less, and with the under and upper threads, and with uniformity; and should have a *straight* needle, curved ones being liable to break.

It should not have perpendicular motion—this is all [illegible] necessary for heavy work.

It should be able to bind with a binder, hem with a hemmer, shirr [illegible] and cording [illegible] and [illegible] work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk above or below, to correspond with any [illegible] cloth to be sewed.

It should be able to make a long or short stitch, and to fasten [illegible] seam, and to commence sewing, tightly at the first stitch, and to run easily, and make but little noise.

It should have a wheel feed—no others are in any [illegible] contact with the work.

It should not be liable to get out of order; neither should it require a screw driver or wrench to set the needle.

It should not be liable to cut the operator's dress.

It should not [illegible] a ridge on the under side, [illegible]

The undersigned are General Agents for the general sale [illegible] of the above-named machines for Pacific States and Western Coast of Mexico.

DR. BAKER'S
PAIN PANACEA.

This compound entirely of healing gums, and vegetable oils and herbs. It is perfectly safe for the most delicate to use, and most effectually say that I have never known any, however ill-health, to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it by the following diseases. If they are not satisfied with its healing properties the money will be cheerfully refunded by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, take a dose of Pain Panacea internally in the externally over the parts affected, and it will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound bathe it well with the Pain Panacea four times a day. It will relieve the pain, and also cure all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses you, or [illegible] after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhoea, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe the gum at the same time; it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe parts affected morning and night, at the same time take a dose of the Panacea internally.

If a Mother has a caked breast apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or sore upon your horse, apply the Pain Panacea; it will take out all the inflammation and heal the sore in a short time.

Sold by all the principal Druggists and by

REDINGTON & CO.,
aug4d&wtf 416 and 418 Front street, San Francisco.

DR. BURTON'S
Balsamic Compound

FOR THE SPEEDY AND RADICAL CURE OF

DISEASES of the URINARY ORGANS.

THIS IS A REMEDY which requires no assistance; it performs its duty quickly and thoroughly, leaving no injurious effect either to the constitution or to the part affected.

It is the result of long experience, and close observation in a great number of cases, and has been invariably successful where other medicines or treatment have failed; thus proving itself to be a remedy, long required by the public.

Price ... $1 per Bottle.

For sale by Druggists everywhere.

Sole Agent for the Pacific Coast,
CHARLES LANGLEY,
Wholesale Druggist,
